

SOLIN NATURALS

SMOKABLES PRODUCT CATALOGUE

LEADING INTERNATIONAL HEMP SMOKABLES COMPANY

Solin Naturals LLC is a leading international hemp smokables and hemp edibles manufacturer, creating innovative hemp/CBD products for a healthier lifestyle.

2022

*“We can sit back, do nothing, and watch
our planet be destroyed. Or we can take action,
become advocates, and start making lifestyle choices
which are kinder to people, animals
and the planet”.*

- Kira Simpson -

INTRODUCTION

Our smokables are made of the finest hand-selected locally grown hemp for the ultimate smoking satisfaction. Our products contain CBD, which is one of the major health-promoting components and natural terpenes responsible for a soothing, aromatic flavor and an enjoyable smoking experience.

Solin Naturals hemp smokes have innovative packaging designs that differentiate them from our competitors', thus leading to increased sales. It contains no tobacco, no nicotine, no additives and its 100% Organic! All our smokables feature revolutionary new bio-degradable filters and we are proud to provide a viable alternative to the planet-polluting cellulose acetate filter, thus reducing pollution. Greenbutts filters are made of a patented blend of food-grade natural fiber including hemp, cotton flock, wood pulp and abaca (also known as 'Manila hemp'), and biodegrade within a few days. These filters provide the same taste and filtration properties of traditional acetate filters, which could take up to 15 years to degrade.

Consumer experience is at heart of everything we do to ensure the Solin Naturals brand reflect the tastes and preferences of our current enthusiasts and future customer. All our premium quality products are grown, manufactured and designed to exceed customer satisfaction and serve as the forerunners of the industry. We have manufacturing facilities in the USA, Canada and Switzerland. We distribute globally!.

Nos cigarettes sont fabriquées à partir de chanvre de haute qualité, sélectionné à la main et cultivé localement afin de garantir une expérience unique. Nos produits contiennent du CBD, un composant bénéfique pour la santé, et des terpènes naturelles aux vertus apaisantes, possédant des odeurs et des saveurs uniques. Le design innovant des paquets de cigarettes CBD de Solin Naturals permet de se différencier de la concurrence et de maintenir un volume de vente supérieur. Il n'y a ni tabac, ni nicotine, ni additifs et c'est 100% bio. Toutes nos cigarettes possèdent des filtres biodégradables. Nous sommes fiers de proposer une alternative durable et écologique aux filtres en acétate de cellulose et de limiter l'impact sur l'environnement. En effet, les filtres Greenbutts sont fait d'un mélange breveté de fibres naturelles de qualité alimentaire comprenant du chanvre, du coton, de la pâte à papier et de l'abaca (aussi connu sous le nom de chanvre de Manille). Ils sont biodégradables en quelques jours. Ces filtres offrent les mêmes propriétés de filtration que les filtres traditionnels, qui eux mettent plus de 15 ans à se décomposer.

L'expérience du consommateur est au centre de nos préoccupations. Nous nous assurons que les produits Solin Naturals reflètent les goûts et les préférences de nos consommateurs d'aujourd'hui et de demain. Tous nos produits de haute qualité sont cultivés, fabriqués et conçus pour dépasser les attentes des consommateurs et sont précurseurs en la matière. Nous possédons des sites de production aux USA, au Canada et en Suisse. Nos produits sont distribués à travers le monde !

State-of-the-art Manufacturing facility in the USA

Our 45,000 sq ft manufacturing facility in San Francisco, USA, is built around our proprietary & patented technology that allows us to manufacture up to 3 MILLION Hemp cigarettes per day. In a hurry? We are able to custom manufacture, process, and pack in as fast as 3 weeks.

THE FINEST RAW MATERIAL PROCESSING

Our facility is climate controlled to preserve integrity and freshness of hemp. All of our hemp is properly dried & cured with full microbial treatment - absolutely NO flash drying.

- custom blending
- 100% "no mold guarantee"
- Quality assurance & lab testing for consistency

We offer state-of-the-art raw material sourcing, material blending and formulation, scaled production, as well as lab testing & assurance.

Canadian Manufacturing Facility

Our Canadian manufacturing facility received a rare exemption research 56 license in 2012. With this we were able to research Cannabis for 5 years before its legalization. Our team of experts have been perfecting the art of cultivating a true quality product.

We take growing Cannabis seriously, we didn't pick just any strains, in fact our team travelled around the world to handpick the perfect strains to cultivate. We wanted to ensure that anyone who tries our cannabis would truly appreciate it for what it really is: An experience.

Certified Bio-Organic Swiss Manufacturing Facility

All our hemp flowers are certified, 100% Swiss Made, tobacco and additive free. Our plants are grown on the shores of Lake Geneva with facilities located between the lake the Alps. All our Swiss-premium quality products are grown, manufactured, and designed to exceed customer satisfaction and serve as the forerunners of the industry. All our products are tested from the flowering step to the curing to ensure that they fit into all regulations. This step is required by national authorities to ensure legality of all our products.

For more than 3 years, our bio-organic certification guarantees you that our processes of cultivation, harvesting, drying, manicure and curing that best respect the integrity and intrinsic qualities of the plants and that make our products a reference of superior quality unanimously recognized on the market.

The Gold Standard for Hemp Smokes

Our USA manufactured smokes are a proprietary blend of Organic Hemp, Sage, and Mullein – setting the industry standard for Hemp smokes when it comes to quality, flavor, and consistency. We perform third party lab testing at 3 different stages in our process: (1) growth, (2) harvest, and (3) final product organized by batch or LOT#. The result is a product that is unmatched by any other Hemp smokes – a soft, refreshing flavor that calms both body & mind. You can truly taste the difference.

USDA Certified Organic Hemp

We grow the finest premium-grade hemp. Each batch is lab tested and quality assured for consistent quality and strength.

Our Hemp is entirely NATURAL: NO chemicals, NO additives, NO harmful fertilizers or pesticides, NO molds or fungi.

Our Hemp is LEGAL: compliant with federal law and the laws of the state in which it was cultivated. The delta-9 THC concentrations do not exceed 0.3%, which is the limit set by the Agricultural Act of 2014 (commonly known as the "2014 Farm Bill") and the Agricultural Improvement Act of 2018 (commonly known as the "2018 Farm Bill").

Organic Sage

Sage is a handsome, silver-colored shrub native to the southwestern US and northwestern Mexico. This aromatic shrub produces clusters of white, silver-grey leaves that have a very pleasant and distinct aroma – earthy and soothing.

Sage has been used for centuries by Native Americans as a wellness supporting herb, and is widely used by our customers for calmness and relaxation.

Organic Mullein

Mullein is a broad-leafed, biennial that produces a tall stem of yellow flowers up to six feet in height. This leafy plant has been used as a wellness supporting herb for thousands of years. The famous Greek physician, Dioscorides, first recommended the plant 2,000 years ago.

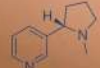

The plant produces a light and smooth smoke, which is appealing to a broad audience, making it a perfect addition to our smoking blend.

Why would a traditional tobacco cigarette smoker embrace hemp cigarettes?

Millions of nicotine cigarette smokers / vapers want a more natural and healthier alternative — yet find it challenging. Hemp cigarettes are the easiest way to offer the same rituals without harmful chemicals or mystery ingredients.

Positive health impacts

Traditional tobacco cigarettes contain 70+ chemicals that are linked to serious health conditions (FDA). Solin Naturals' smokes (including MOUNTAIN smokes) contain only organic Hemp, Sage and Mullein, and users appreciate the health benefits of CBD.

Non-addictive No nicotine

Nicotine is addictive. Hemp cigarettes contain no nicotine and the CBD contained in hemp offer an attractive alternative to traditional Nicotine cigarette consumption.

Same habitual motion as tobacco cigarettes

Solin Naturals' smokes mimic the habitual motions of traditional cigarettes, including feel, ignition, crackling burn, hand-to-mouth, psychological fulfillment, and smoke exhalation.

Same experience and rituals

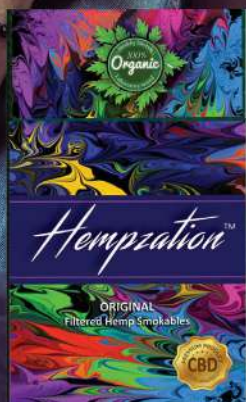

Smokers can get the same familiar experience: same packs, same foil, same filters, same flow, same ritualistic motions - without the harmful chemicals in traditional tobacco cigarettes.

Same convenient accessibility

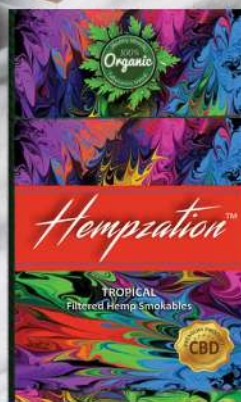

Solin Naturals' products (incl MOUNTAIN Smokes) will be available in most places where traditional cigarettes are sold, including gas stations and convenience stores and for less retail cost.

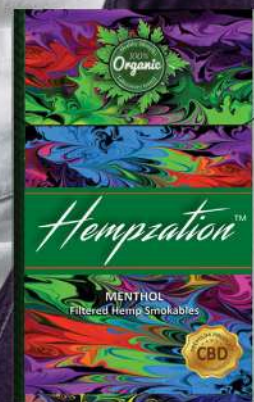

SKU 0004 | MOQ: 1,000 cartons

SKU 0003 | MOQ: 1,500 cartons

SKU 0004 | MOQ: 1,500 cartons

SKU 0005 | MOQ: 1,500 cartons

Why are our smokes eco-friendly?

BIODEGRADABLE FILTER TIPS

An estimated 6-trillion cigarettes, tipped with cellulose acetate filters, are consumed annually in the USA, and cities spend millions of dollars cleaning up cigarette butts. However, a large proportion of these filters still find its way into storm water drains, rivers and oceans.

Cigarette butts make up 19-38% of the litter collected on beaches worldwide each year and are a significant hazard to water quality and marine animals. Conventional acetate filters take up to 15 years to degrade.

Tobacco kills more than 8 million people each year worldwide. About 1,2 million of these are the result of non-smokers being exposed to second-hand smoke in the environment (WHO). Second-hand smoke from hemp smokables does not contain toxic substances as in conventional cigarettes. Our hemp smokables feature revolutionary new biodegradable filters which are a viable alternative to the planet-polluting cellulose acetate filter.

Greenbutts has designed a natural, rapidly degrading cigarette filter using raw materials including flax, cotton, and manila hemp with no artificial compounds or chemical residues. The average time for degradation of a Greenbutts filter is 3 days in compost, or 2 minutes when dispersed in water.

PACKS & CARTONS

We only use biodegradable and chemical free materials and soy-based ink with our packs and cartons.

COMPOSTABLE CELLOPHANE

Our packs are wrapped and sealed in cellophane. Cellophane is plant-based. The "cello" in cellophane stands for cellulose – the structural component of plants.

Our products appeal to many audiences

Our Key Market Segments:

Adult tobacco users looking for an alternative to cigarettes, e-cigarettes and vaping.

Consumers seeking CBD that is more bioavailable and convenient than most topicals and capsules.

Individuals seeking relief from everyday stress, to experience relaxation, and achieve clarity of mind.

Smokers who want to continue smoking yet avoid the cultural/social stigma/smell of Cannabis.

Meet The Device

- 100% Whole Flower**
Only 100% whole flower buds from some of California's best cultivators.
- Compostable Sticks**
Eco-friendly sticks pre-filled with 12 1.5g (0.05oz) or .17g (THC) sticks.
- All Taste**
Omura activates the terpenes without charring the plant, allowing for the plant's true flavor to shine.
- Heat-Not-Burn**
No burning, ashing, and no lighter needed.
- CBD Compatible**
Omura supports all flower sticks, including hemp sticks found on omura.com.

Price of Heat Device: On request

Omura is a first of its kind, heat-not-burn device. Using a proprietary heat curve and a convection oven, the Omura vaporizer heats the pre-filled flower stick for a timed 3 minute session. The device is designed for indoor use with convection heat creating minimal vapor and no lingering odor.

Heat Curve - Our heat curve works at a much lower temperature, ranging from 300°F to up to 430°F to activate all the terpenes and cannabinoids.
Convenient and Clean - No grinding, packing or cleaning your Omura. Just insert a flower stick and go.

Sustainable - Flower Sticks are made of FSC certified paper and filled with 0.17g (THC) or 0.125g (CBD) of whole flower only. Sticks are biodegradable and compostable.

Not available in: Hawaii, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, South Carolina, South Dakota, Washington

May also be available in your country.

Feature:

Fast Heating, Plug and smoke

Intelligent temperature control to keep taste

More endurance, full charge can pump 30 cartridge

USB Charging Port

Model name: HEAT01

Product size: 112*17mm

Heating temperature: 320 degree

Battery capacity: 650mAh

Endurance: 4.2 minutes

Cigarette diameter: 7.2mm

Product Weight: 32g

Certification: FDA, FCC, KC, CE, 3C, ROHS

Packing box: heated device, USB cable, user manual

HEAT-NOT-BURN

Real cigarette taste, healthy alternative

All for making you live a healthier

short circuit protection

overcharge protection

low voltage protection

over-suction protection

over-temperature protection

electrostatic protection

Solin Cannagars in Luxury Cardboard Box 6 x 6g Cannagars per Box

We make 100% Cannabis Cigars from the Hemp plant. These are a CBD rich hemp with 14% and higher CBD content. We have COA's (certificate of analysis) and Terpene profiles on all Hemp used.

We take a lot of pride in the work we do and we want people to know that. These are all hand packed, wrapped and cured in climate controlled humidors for at least 2 weeks to give a nice, clean, smooth and slow smoking experience.

These are NOT blunts or shells. These are all hand packed, wrapped with hemp leaves and cured. Each of these hand crafted cigars are packaged with a humidity pack to keep freshness in for over 3 months.

(Legal)
alwyn@deark.co.za

Carien is a qualified Marketing and Communications Specialist with extensive experience in this field and has a demonstrated history of success in the entertainment, media and consumer goods industries. Carien has pioneered "first-of-its-kind" industry-changing and transformational business initiatives that propelled revenue growth, brand exposure and market expansion. She is also an experienced Graphic Designer, freelance photographer and video editor.

Johan obtained a PhD in Biochemistry from the University of Natal, South Africa.

As Specialist Scientist in the field of plant and ruminant physiology he made his mark by developing nutritionally superior grass cultivars.

He authored chapters in several scientific textbooks.

Energetic, endlessly enthusiastic, Clarisse works with passion to foster an atmosphere of motivation and performance. Thanks to her diverse experiences at the United Nations, in a leader communication agency, and at Japan Tobacco International (JTI), Clarisse has developed solid communication, project management, and strategic planning skills. Passionate about sustainability issues, she is an adept relationship builder and a change agent. Versatile by nature, her entrepreneurial management style allows her to become a trusted adviser of her colleagues and clients.

Kim is an articulate, confident and professional Marketing Manager who is able to put together comprehensive marketing strategies that will drive a company's profits, build its image and strengthen its position within the marketplace. As someone who naturally strives to find resolutions to problems, she is a structured thinker who can analyze complex issues and present effective solutions. Possessing a real appetite for taking on exciting and new challenges means she works hard to understand a target audience and find new ways of engaging with them.

Alwyn has been involved in the management of several companies. He studied at the University of South Africa (UNISA) where he was awarded a LLB (Law) degree. Subsequently he completed his MBA from Edinburgh Napier University in Scotland. He has extensive experience in the franchising industry and was Operations Manager at a National Food Franchise Head Office for the past 16 years.
