# TarFilter

Since 1990 we are producing disposable cigarette filters in Turkey and successfully exporting to many countries.

Our filters help to protect the health of those who can't quit.

A substantial Tar and other harmful substances are caught by our filters While you smoke without losing the taste.

Each filter can be used for minimum 4 times.

When yellow area is full you can replace with a new one.

We also can produce for our clients abroad with their logo.

# TARFILTER

A box of TarFilter cigarette filters. The box is dark blue with gold and white text. The top of the box features the brand name "TarFilter" in a large, gold, serif font, with "FOR SMOKERS" in a smaller, white, sans-serif font below it. A large, white, downward-pointing chevron shape is centered on the front panel. Below the chevron is a circular logo with the words "CIGARETTE FILTERS" around the perimeter and a yellow filter illustration in the center. Below the logo, a white banner contains the text "One Filter can be used for 4-5 cigarettes". At the bottom of the front panel, it says "30 FILTERS" in white. The side of the box also displays the brand name and logo. The box is set against a dark red background and is reflected on a dark red surface below it.
